Brief fees are calculated according to the formula  $D*(d+p)$  where  $D$  is the daily rate and  $d$  the number of days for which the trial is listed or the number of days the trial lasts if longer, and  $p$  reflects the anticipated number of days' preparation. Subject to specific agreement on a case by case basis  $p$  is to be assumed to be the same as  $d$ .
